Re: Sauget Area 1 Culvert Rplacement
Cahokia, St. Clair County, Illinois
TDD: S05-0007-002
PAN: 0U0201RSXX

Dear Ms. Nabasny:

The Ecology and Environment, Inc.(E & E), Superfund Technical Assessment and Response Team (START) was tasked by the United States Environmental Protection Agency (U.S. EPA) to conduct culvert replacement oversight under Technical Direction Document (TDD) S05-0007-002 at the Sauget Area 1 Culvert Replacement site located in Cahokia, St. Clair County, Illinois. This Letter Report documents START activities under this TDD.

During October 2000, START conducted inspections of culvert replacement project. Maverick Construction Management Services, Inc., Boston, Massachusetts and Heritage Environmental Services of St. Louis, Missouri, have replaced culverts near Cargill Elevator Road. They dammed Dead Creek and diverted water using sumps. The crew replaced two 48-inch corrugated culverts with six-by-six feet box culverts. The crew have backfilled and graded the excavation area. All activities were reported to U.S. EPA On-Scene Coordinator Kevin Turner.

This Letter Report completes START activity under TDD S05-0007-002. Should you have any questions or require additional information, please contact our office.

Sincerely,

Keith Hughes
START Project Manager

+ Dan Sewall
START Program Manager

cc: Kevin Turner, U.S. EPA OSC
